

L-1200 Pouch Laminator

CT Series Pouch Laminator

The most popular desktop laminator because of its size, durability and quality laminating. The L-1200 is designed for medium to heavy use (up to 100 pieces per day). The L-1200 has rocker switch operation so unit stays heated all day without running the motor. There is no waiting for the machine to heat up each time used, saving wear and tear on the motor.
