

## Standard All-Purpose Laminating Film

Provides superior protection for school projects and documents at an economical price. It is the perfect blend of quality and value in general purpose laminating film. Bonds well to copy, inkjet and other porous papers with light to medium ink coverage. Dry-Lam standard laminating film produces an excellent clear protective finish to any document or art project and will protect them from water, dirt, and handling. The film can be used on any brand laminator. Melting temperature is 280 degrees.

Standard laminating film comes packaged two rolls per box. Each roll is wrapped in a poly bag with end of the roll warning label.

### Standard 1.5 mil Laminating Film

- ◆ All-purpose film with good bond
- ◆ Unparalleled clarity and finish
- ◆ Performs beautifully on any desktop heat shoe or hot roller education laminator
- ◆ Melting temperature of 280°
